\_\_\_\_\_

## \*Copy of the main occupant/owner's proof of identity required

A copy of the main occupant/owner's proof of identity is also required in addition to the signed consent form, clearly showing the following identity details: name, date of birth and signature.

## KopieID app for safely copying your proof of identity

You can safely copy your proof of identity using the KopieID app. The KopieID app allows you to cross out any identity data in the copy of your proof of identity which organisations either don't need, or are not permitted to process. The app also inserts a watermark in the copy. This watermark can be used to state the purpose and date of the copy. The watermark can also be added without crossing out data. You can subsequently send or print the copy. You can find more information on: <https://www.government.nl/topics/identity-fraud/question-and-answer/how-do-i-make-a-secure-copy-of-my-id-with-the-kopieid-app>. You can also instantly download the app via the Apple App Store or the Google Play Store from here.
